

[Spleef Rules]

Our Spleef arena is located at [/warp MegaMarket]. Since we can't use plugins for our custom Spleef battles, we do have some rules you contenders have to follow. I will list them down here below.

1. Once you are the last person on a snow platform, while everybody else is already 1 floor beneath you, you **MUST** jump down within 5 seconds of the other person falling down.
2. You must clear your inventory completely before entering the battle arena, we will supply your food, shovel and leather armor specific to your rank you are playing in.
3. No /fly (obviously)
4. No potion effects
5. No placing blocks
6. No /b if you die
7. Don't cheat

We have to manually change out the snow layers inbetween each round, please allow us to take that time to fix the platform before the next round starts!

If you have any questions, feel free to contact us via Discord or /msg / mail on VE!
